

BRAD HOWE: ARTIST STATEMENT

“If we are to engage in the project of self-edification, the evolution of self, the enterprise is tied to our imagination. As Richard Rorty indicates, imagination is bound by our vocabulary, and it is in the growth of vocabulary we should focus. Vocabulary is tied to experience, and it is in energized moments of exposure to strangeness that our vocabulary expands. Encountering strangeness stretches and expands our self-image and seeds the rich potential for our collective conversations.”
